

RESHAM ACHARYA

FULL STACK DEVELOPER

EXPERIENCE

CashKr

Mumbai, Maharashtra,
India

Full Stack Developer

10/2023 - present

- Successfully developed and maintained frontend applications using modern tech stack including Next.js, Shadcn UI components, and Zustand for state management, resulting in improved application performance and user experience.
- Engineered efficient REST API integrations with error handling mechanisms, leading to more reliable data operations and improved system stability.
- Performance Optimization by reducing API response times to under 20ms through Redis caching implementation Enhanced data efficiency using compression mechanisms and service-controller architecture.
- Security Enhancements by Implementing comprehensive authentication system with protected routes. Developed structured access control layers for secure data management.
- Used project management tool Jira and liftOs for task management.

Digital Mantras

Kathmandu District,
Nepal

Full Stack Developer

07/2023 - 10/2023

- Developed and deployed full-stack web applications using Next.js, Tailwind CSS, Node.js, and Express.js Designed and implemented RESTful APIs, ensuring seamless integration between frontend and backend systems. Optimized application performance through efficient code practices and proper API architecture.
- Successfully delivered multiple features while working under project leads, meeting all project timelines Implemented robust error handling and validation across the full application stack. Maintained clear documentation and coding standards to support team collaboration.
- Gained extensive expertise in modern full-stack development practices Enhanced problem-solving capabilities through complex API integration challenges. Strengthened collaborative development skills while working with project leads.
- Reduced server response time by 20%, enhancing user experience significantly.
- Increased code deployment efficiency by 30%, resulting in faster release cycles.
- Managed 15 concurrent projects, each worth over \$250,000.
- Oversaw 40,000 lines of code across multiple repositories.
- Enhanced application security by reducing vulnerability incidents by 75% by implementing advanced threat detection systems.
- Increased system uptime to 99.99% by migrating to a cloud-based infrastructure.

EDUCATION

Gorkha Model secondary school

01/2019 - 12/2021

Science

Vedas college

02/2021

SUMMARY

Full Stack Developer with expertise in Node.js, React, and TypeScript. Demonstrated success in delivering innovative solutions through strong problem-solving skills and collaborative development. Committed to creating impactful applications that drive positive technological advancement. Experienced in transforming complex requirements into efficient, scalable solutions while maintaining high code quality standards.

KEY ACHIEVEMENTS

Efficiency Optimization Success

Led team to increase code efficiency by 30% through optimization strategies.

Enhancing Customer Engagement

Contributed to a project that resulted in a 20% increase in customer engagement.

Platform Load Time Reduction

Implemented features that reduced load time by 50% on key platforms.

High-Traffic Application Development

Developed responsive web applications used by over 10,000 daily users.

COURSES

Bachelor In Computer Application

PASSIONS

DevOps Engineer

Singer
